EXPERIMENT:3

Aim:

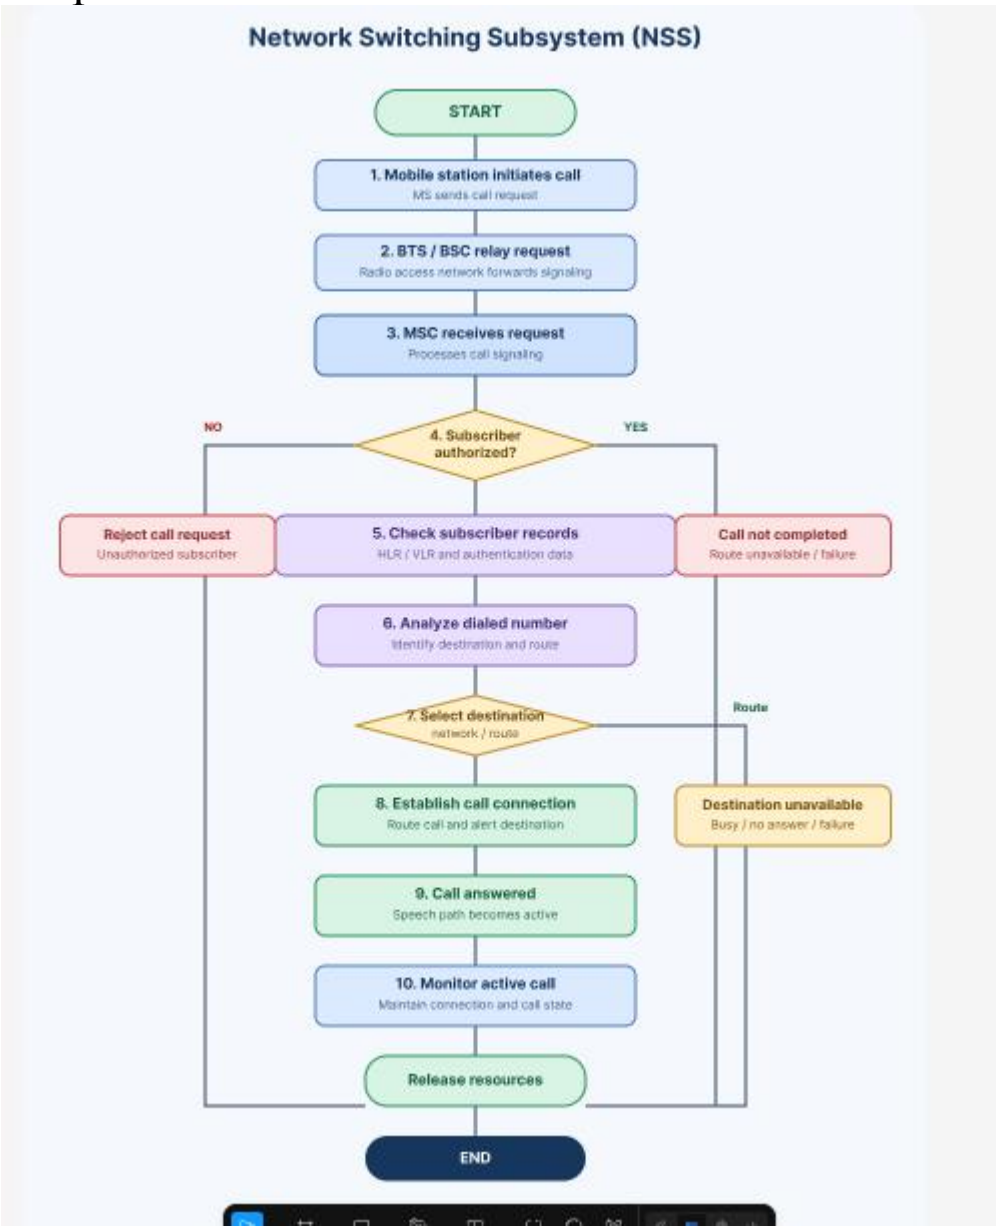

To develop a flowchart in Figma illustrating the operation of the Network Switching Subsystem (NSS) in a mobile cellular communication system.

Procedure:

- Open Figma and create a new design file.
- Save the SVG code above as nss_flowchart.svg.
- Import the SVG into Figma by dragging the file onto the canvas.
- Adjust the colors, shapes, labels, and arrows as required.
- Use Figma's Prototype tab to link flowchart stages if you want interactive navigation.

Output:

Result:

A flowchart representing the main stages of NSS call processing, including subscriber authorization, routing, call connection, and resource release, is provided in SVG format for import into Figma.
